SUBJECT INDEX FOR VOLUME 36

abortion, comparative costs in Kenya and Mexico, 1443–1453
affective disorders, 21–32
Africa, traditional religion and health care, 237–247
AIDS, competing discourses in sub-Saharan Africa, 175–194
and sexual risk behaviour in Uganda, 429–439
knowledge of, 509–524
and lifestyle, 893–901
prostitution and the military in Belize, 965–979
social relationships among men, 1161–1167
perceptions in the Ivory Coast, 1229–1235
the geography of HIV infection in sub-Saharan Africa, 1247–1256
and sexual behaviour in Sweden, 1535–1540
perceptions of risk among dentists, 1579–1586
alcohol, doctor–patient communication, 1121–1136
Asia, spatial disparities in mortality, 1313–1317
Asian refugees, in U.S.A., 203–216
Australia, childbirth at home, 475–483
suicide and unemployment, 749–756
autism, its treatment, 1037–1046

Bangladesh, health and the 1991 cyclone, 903–914
child feeding practices, 925–935
and spatial disparities in mortality, 1325–1330
Bamako initiative, 1383–1395
body, and anthropology, 857–865
Brazil, primary health workers, 775–782
breast cancer, delays in seeking help, 1521–1534
breast feeding, in Guinea-Bissau, 283–288
among the Bedouin, 975–964
and weaning in urban Egypt, 1063–1069

Cameroon, mortality trends, 1285–1290
Canada, health status among the elderly, 273–282
women, health and stress, 393–402
child behaviour, and parental support, 353–360
child feeding practices, in rural Zimbabwe, 937–947
among the Bedouin, 957–964
child health, and war in Mozambique, 843–848
and the social environment, 867–874
and parental reporting, 1017–1022
child health care, 77–83
in the Philippines, 297–304
child morbidity, the impact of socioeconomic inequality, 1053–1061
child mortality, in Peru, 317–331
in Mexico, 793–805
and demographic variables in Thailand, 1109–1120
and maternal education, 1207–1227
childbirth, comparative locations in Australia, 475–483
childhood conditions, their impact on subsequent morbidity, 1047–1052
China, financing health care, 398–391
and spatial disparities in mortality, 1319–1323
common cold, 15–20
community participation, and disease control, 1145–1150

childbirth, comparative locations in Australia, 475–483
childhood conditions, their impact on subsequent morbidity, 1047–1052
China, financing health care, 398–391
and spatial disparities in mortality, 1319–1323
common cold, 15–20
community participation, and disease control, 1145–1150

compliance, among pregnant women in Malawi, 403–407
Congo, causal factors of child diarrhoea in, 807–816
culture, and disability, 615–623
and stress in Samoa, 1169–1180
culture shock, and readjustment of children, 1181–1186

decision-making, physician prescribing, 1473–1482
demographic change, 143–155
and poverty, 157–166
the impact of induced abortions on fertility, 703–707
demography, and child mortality, 1109–1120
dental care utilisation, in the U.S., 361–370
dentist location, in Michigan, 569–573
dentistry, the cost effectiveness of dental sealants, 1483–1493
perceptions of AIDS risk, 1579–1586
developing countries, behavioural determinants of health, 125–135
and national mortality levels, 143–155
and analysis of health data, 1087–1097
and mortality inequalities, 1239–1382
user charges for health services, 1397–1405
diarrhoea, health beliefs in Saudi Arabia, 373–377
and oral rehydration therapy, 525–531
and associated factors among Congo children, 807–816
and weaning practices among children in urban Egypt, 1063–1069
among children in rural Nicaragua, 1613–1624
disability, importance of description, 167–173
and culture, 615–623
disease control, and community participation, 1145–1150
distress predictors, among south-east Asian refugees, 631–639
doctor–patient relationship, 57–66, 1597–1604
confidentiality and AIDS, 195–202
truth telling in terminal care, 249–264
self-destructive behaviour, 1121–1136
and terminal care, 1151–1159
dracunculiasis, socio-epidemiological aspects of control, 463–474
drug marketing, in francophone Africa, 1541–1543
drug prescription rates, in Sweden, 343–351
decisions, 1473–1482

Ecuador, Old World diseases in pre-colonial times, 1187–1195
egg donation, and gender, 85–93
elderly people, gender inequalities in health, 33–46
and self status, 273–282
and dental care utilisation, 361–370
changes in life satisfaction, 641–655
and female suicide in Japan, 1467–1472
ethnic difference, in child health, 867–874
euthanasia, 757–765

French Polynesia, spatial aspects of mortality, 1139–1148

gender, rights and development, 175–194
gender differences, in health beliefs, 7–20
in health perception, 419–427
and mortality rates, 451–462
gender inequalities, in health, 21–46
Ghana, maternal mortality, 1503–1507
Gibraltar, social and ecological determinants of urban health, 875–892
Guatemala, food distribution, 1605–1612

Hawaii, patterns of low birth weight, 557–564
health beliefs, 7–14
in rural Africa, 237–247
ideas about bad milk, 283–288
and ultrasonography, 311–315
among Canadian women, 393–402
and gender differences, 419–427
about AIDS, 509–524
and 'white liver', 609–614
and child feeding practices in Bangladesh, 925–935
among lower socioeconomic class British mothers, 1137–1144
and childhood mortality, 1207–1227
health care, access and payment, 485–494
health care professionals, and patient control over dying, 757–765
in north-east Brazil, 775–782
health care systems, the U.S. case, No. 3, iii–vi
and public attitudes, 565–568
health economics, 137–141, No. 4, iii–v
health care financing in El Salvador, 735–747
and patient rights, 1071–1076
evaluating the Bamako initiative, 1383–1395
user changes in developing countries, 1397–1405
cost effectiveness of dental sealants, 1483–1493
health education, and child rearing, 77–83
health finance, in rural China, 385–391
user fees in El Salvador, 735–747
health for all, and health economics, 137–141
health inequalities, No. 12, iii–vii
and socioeconomic status, 441–450
and occupational status, 1077–1086
health interventions, in the Third World, 125–135
health policy, No. 1, v–vii
and planned sociopolitical change, 109–117
health promotion, 109–117
and managerial style, 227–235
and self-destructive behaviour, 1121–1136
and childhood diarrhoea in rural Nicaragua, 1613–1624
health research, 103–108
health services, demands across Italian social groups, 999–1009
health status, among Canadian elderly, 273–282
and socioeconomic status, 441–450
and life satisfaction among the elderly, 641–655
and employment status, 715–724
among women according to employment and marital status, 1099–1104
health transition, 125–135
hepatitis B, carriers in U.S.A., 203–216
HIV transmission, No. 5, iii–viii
in Uganda, 949–955
and condom effectiveness, 1635–1644
hospital organisation, 67–76
volunteers in an hospice, 1625–1633
hospital use, the problem of 'border crossing' in U.S.A., 1455–1462

individual rights, versus public health, 203–216
information systems, for management information, 585–596
Islam, and health care in Africa, 237–247
Israel, induced abortion and fertility, 703–707

Italy, health needs and demand for services, 999–1009
Ivory Coast, the perception of AIDS, 1229–1235

Japan, mortality among the unmarried, 533–546
doctor–patient communication in terminal care, 1151–1160
stress and exercise among the elderly, 1429–1441

Kenya, health care, 485–494
costs of treatment of incomplete abortion, 1443–1453
knowledge of action, in health policy, No. 1, v–vii
Kuwait, valuations of pain in, 683–692

Latin America, spatial disparities in mortality, 1349–1355
spatial disparities in mortality, 1357–1365
life expectancy and infant mortality, 1373–1382
Lebanon, war, stress and mental health, 1555–1567
life satisfaction, and health, 547–556
lifestyle, and AIDS, 895–901
low birth weight, in Hawaii, 557–564

Malawi, compliance among pregnant women, 403–407
Malaysia, and child mortality, 1331–1334
Mali, the hot–cold classification in illness management, 673–681
mortality among the Dogon, 1291–1296
marital status, and mortality in Japan, 533–546
maternal and child health, weaning in Nigeria, 665–672
maternal health, 333–342
maternal mortality, 371–372
in Zimbabwe, 1197–1205
in Ghana, 1503–1507
Mauritius, morbidity and mortality, 1273–1283
medical anthropology, 609–614, 673–681, 793–805, No. 3, iii–vii, 957–964
and AIDS in Africa, 429–439
and psychiatry, No. 3, iii–vii
medical care, No. 11, iii–iv
medical decision-making, among hospital physicians, 915–924
medical ethics, problems of confidentiality, 195–202
medical geography, 119–123, 1011–1016, 1239–1382
patterns of low birth weight in Hawaii, 557–564
medical slang, 987–998
medical sociology, 95–102
medical students, 823–833
mental health, 597–607
and primary care in Nicaragua, 625–629
distress among south-east Asian refugees, 631–639
in a rural coloured community in South Africa, 657–663
the impact of war in the Lebanon, 1555–1567
schizophrenia care in an English town, 1587–1596
Mexico, allocation of household resources, 305–310
costs of treatment of incomplete abortion, 1443–1453
minorities, and mental health, 597–607
mortality, among the unmarried in Japan, 533–546
and the impact of childhood living conditions, 1047–1052
mortality trends, 143–155, 451–462
and socioeconomic differences, 409–418
in North Africa, 1257–1265
Mozambique, the impact of war on child health, 843–848

natural disasters, and health, 903–914
Netherlands, smoking among physicians and medical students, 817–822
Nicaragua, mental health care, 625–629
culture and childhood diarrhoea, 1613–1624
condoms and AIDS prevention, 1645–1647
Nigeria, weaning practices, 665–672
mortality variations, 1267–1272
North Africa, mortality trends, 1257–1265
nutrition, 1237
weaning practices in Nigeria, 665–672
and the commercialisation of agriculture, 1407–1416
in Guatemala, 1605–1612

occupational health, 47–55
and health promotion programmes, 227–235
and marital status, 1099–1104
and stress, 1509–1517
oral rehydration therapy, 525–531

pain, comparative perceptions of nurses and patients, 683–692
and social science, 783–791
Panama, mortality analysis, 1367–1371
parasitology, socio-epidemiological aspects, 463–474
parental psychopathology, 353–360
patients' attitudes, and placebos, 767–774
Peru, child mortality, 317–331
Philippines, women's work and infant care, 297–304
physician attitudes, to placebo treatment, 767–774
physician choice, of treatment, 915–924
poverty and health, 157–166
pregnancy, and child birth among the Amish, 333–342
and malaria prophylaxis, 403–407
and psychosocial support, 495–507
and follow-up studies, 1053–1061
primary health care, management systems, 585–596
psychiatry, cross-cultural research, 265–272
and anthropology, No. 3, iii–vii
psychosomatic illness, and gender variation, 21–32
psychotropic drugs, utilisation patterns in Sweden, 343–351
public opinion, and the National Health Service, 565–568

research, interpretation and results, No. 8, iii–iv
rheumatoid arthritis, 1495–1502

Samoa, acculturation and symptoms, 1169–1180
Saudi Arabia, health education, 373–377
schizophrenia, a typology of care episodes, 1587–1595
self-identity, language and disability, 167–173
self-reported health, 15–20
Senegal, mortality trends, 1297–1311
Sense of Coherence scale, 725–733
sexual behaviour, and AIDS among Ugandan women, 429–439
among the military in Belize, 965–979
in Sweden, 1535–1540
and AIDS, 1635–1647
smoking, and Dutch medical profession, 817–822
and doctor–patient communication, 1121–1136
social position, and psychomatic illness, 21–32
social relationships, and AIDS, 1161–1167

social rules, and morbidity, 217–225
and mortality, 217–225
social support, and pregnancy, 495–507
socioeconomic indices, their contribution, 1087–1097
socioeconomic status, and maternal health behaviour, 1137–1144
stress and work, 1509–1517
and cardiovascular mortality in Sweden, 1569–1578
South Africa, 'nerves' in, 657–663
spatial analysis, 1011–1016
stress, and women's health problems, 393–402
and housing quality in Thailand, 1417–1428
and exercise among elderly Japanese, 1429–1441
and the work environment, 1509–1517
sub-Saharan Africa, and competing HIV/AIDS discourses, 175–194
the geography of HIV infection, 1247–1256
suicide, and unemployment in Australia, 749–756
among elderly Japanese females, 1467–1472
Sweden, use of benzodiazepines, 343–351
sexual behaviour and AIDS, 1535–1540
mortality and socioeconomic class, 1569–1578

terminal care, in U.S.A., 249–264
measuring family satisfaction, 693–701
in Japan, 1151–1159
and hospice organisation, 1625–1633
Thailand, and herbal medicine, 1023–1035
child mortality, 1109–1120
and mortality, 1335–1338
housing and stress, 1417–1428
traditional birth attendants, in Ghana, 1503–1507
traditional medicine, the hot–cold classification in Mali, 673–681
and herbal medicine in Thailand, 1023–1035
transcultural psychiatry, and post-empiricism, 265–272
triangulation methods, in facilitating treatment efficacy, 1545–1554

U.K., obstacles to medical audit, 849–856
health behaviour among lower class mothers, 1137–1144
U.S.A., social research in health, 95–102
health care system, No. 3, iii–vi
and Asian hepatitis B carriers, 203–216
and terminal care, 249–264
type A behaviour among southern blacks, 289–295
dental care among veterans, 361–370
dentist location in Michigan, 569–573
Uganda, and HIV transmission, 949–955
ultrasound screening, 311–315
unemployment, and health, 715–724
and suicide in Australia, 749–756
urban health, 19th century Gibraltar, 875–892

war, and family health, 1555–1567
witchcraft, and sudden death among children in Mexico, 793–805
women's health, 1–93
and social roles, 217–225
stress, anxiety and depression, 393–492
women's work, and infant care, 297–304

Zimbabwe, child feeding practices, 937–947
maternal mortality, 1197–1205
